## Password reset variation for multiple employer accounts

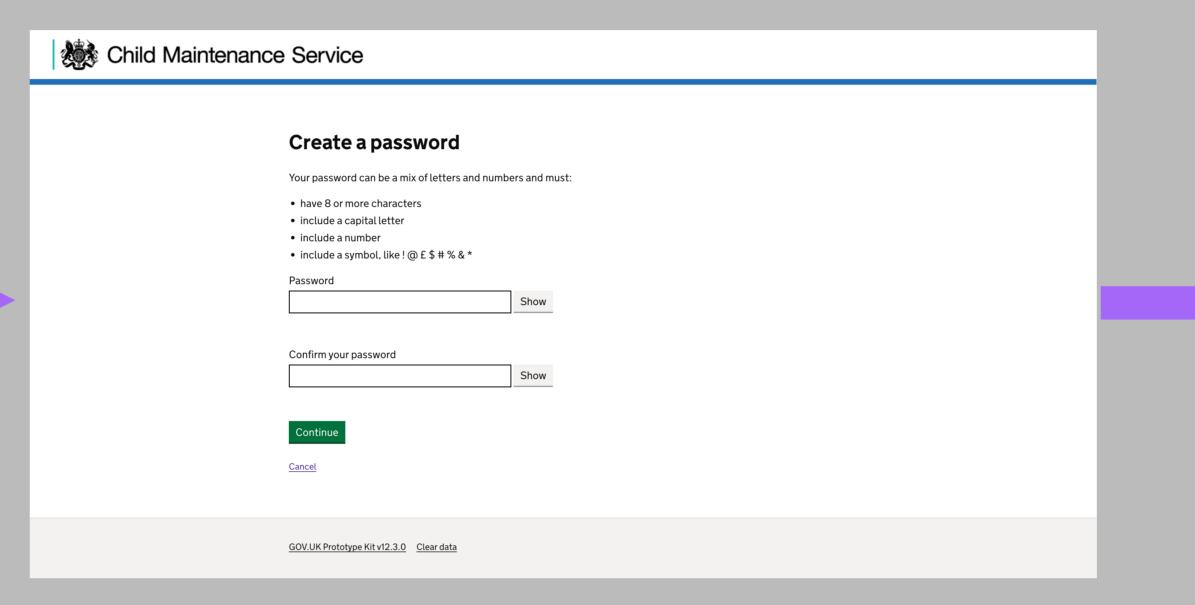

The user creates a password, which they will use to sign into the service in future.

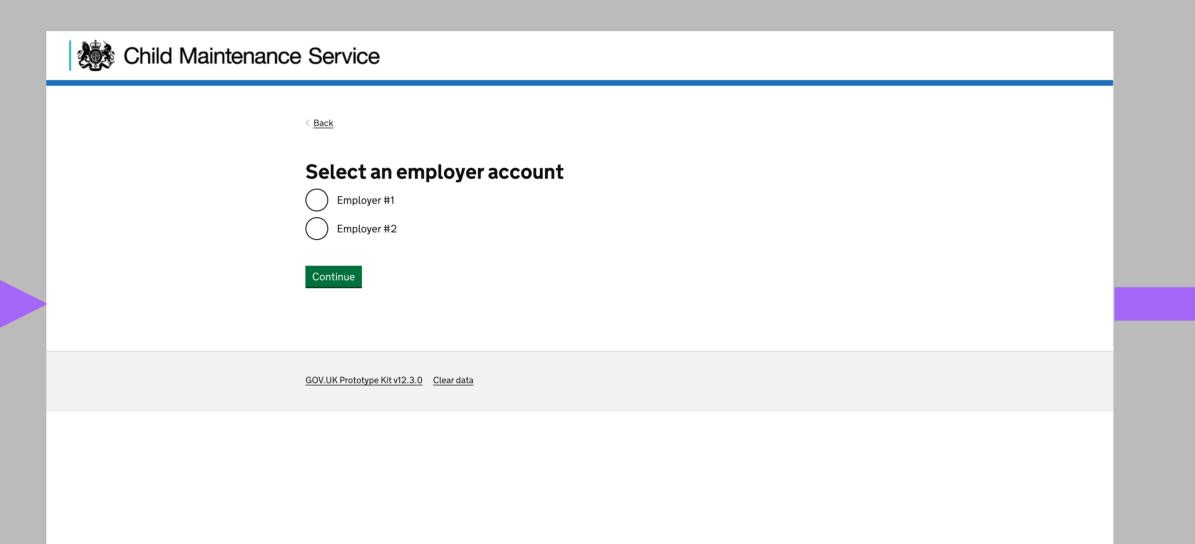

The user receives a confirmation screen stating their password has been reset and they are now signed in.

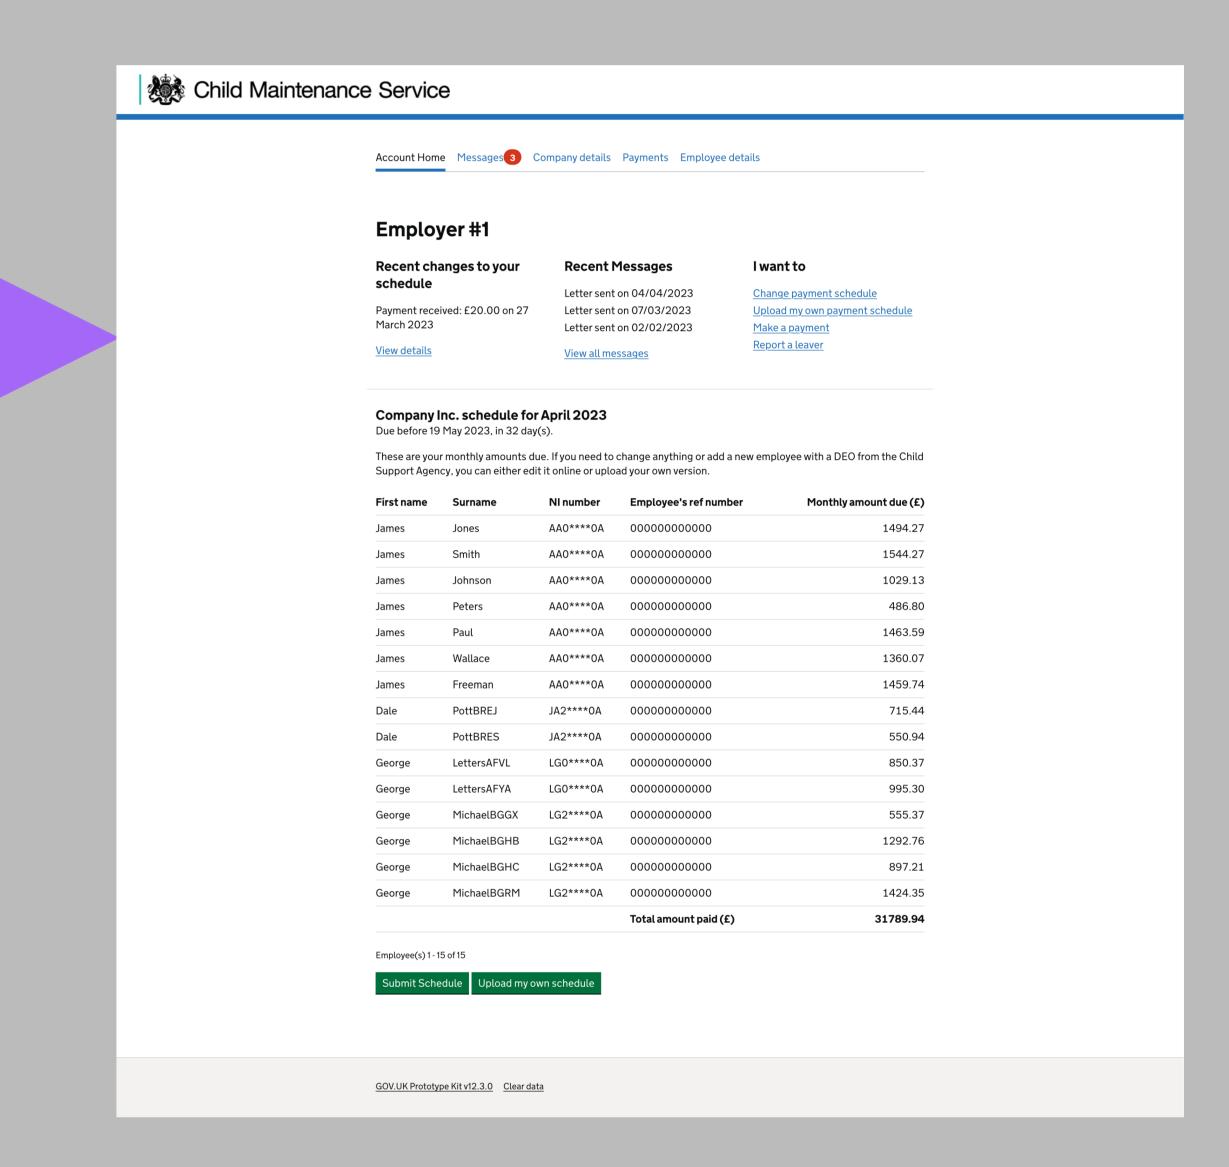

The user needs to sign in using their email address and new password.

The user selects the employer account they need to access.

The user continues to the Child Maintenance employer service, employer #1 account home page.

The user continues to the Child Maintenance employer service, employer #2 account home page.
